What you think a potential employer should know about you:

I am a dedicated professional with extensive experience in global production management, strategy development, and lean manufacturing. My passion is the leading of teams through change and optimizing operations to achieve high efficiency and quality standards.

Managed global production sites, optimized and digitized processes, led large teams, and engaged in international project management. Developed and implemented effective production strategies.

Worked over 4 years in Malaysia (Penang), contributing significantly to operations and team leadership.
