### **COMPANY PROFILE**

"Transport Is Our Business"

That is a. hartrodt's slogan. As a global company, we provide our customers with tailored solutions covering all aspects of transport and logistics. An extensive network and a team of more than 2,078 dedicated professionals ensure that we are best able to meet your individual requirements.

Completely Individual – This Is What Makes Our Solutions Special even after 130 years, a. hartrodt has remained a privately owned medium-sized company. This simply means we are closer to you - our customers. We find out what matters most to you through personal consultation. In this way, we can develop individual solutions to help you achieve your business goals. Our global network and the commitment of our staff guarantee that we are also able to realise whatever solution we aim to provide. In this sense, we combine a medium-sized company's personal approach to customer service with the broad scope of a global player operating on an international level.

Global Citizens, Regional Presence – We transport assets. We link markets. We ensure the flow of goods across continents. Because transport and logistics are our world. We oversee all key order management tasks in order to give our clients top quality service: transport, custom clearance, warehousing, picking and packing, and distribution. Our global corporate network forms the basis of our services. It consists of 63 operational subsidiaries and associated companies in 45 trading nations. The companies work as overseas forwading company in the air and ocean freight sectors. They organise export and import shipments of general cargo, full containers and conventional cargo. Land transport, warehousing and distribution services are closely linked to the overseas forwarding companies.

### **DID YOU KNOW?**

Medical goods are time critical, fragile, sensitive, expensive and needed all over the world. a. hartrodt has developed the expertise and knowledge over the past decades working closely with customers and government authorities by arranging seamless transportation, under temperature control, up to hospital- and clinic doors, providing fast customs clearance, special packaging and handling the goods with extra care and attention on 24/7 availability for the product to arrive on time at the desired destination.

Web: www.actiforce.com

### **COMPANY PROFILE**

### **Started a Movement**

Actiforce has been elevating workspaces for nearly two decades. Now a global company. Actiforce started in the Netherlands as just an idea, driven forward by visionary and successful entrepreneur, Johan De Weerd.

After Johan sold his archive management company in 2003, he met a passionate engineer who had a remarkable invention that made it possible to adjust the height of a desk and with pinpoint precision using an ingenious cable construction. Johan saw how this idea would really benefit businesses and their employees and invested in the idea. He believes "it was the best business decision of my life."

Today, that patented VisionLift® system is the foundation of Actiforce products that sets Actiforce apart. Actiforce started a movement that, today, has help elevate the work spaces for thousands of people across the world.

In 2021 Actiforce merged with Hettich, one of the world's largest and most successful manufacture of furniture fittings. To fully realise the international growth potential beyond our existing capabilities and resources to a degree that only an established, global market leader possesses. Hettich was the obvious choice.

### **DID YOU KNOW?**

A collaborative culture

Agility is a word that describes not only the products that Actiforce creates, yet also its culture. A purposefully short chain of command encourages action, movement and transparency. Prioritising equality and cross-collaboration within its own teams – across sales, marketing, R&D, engineering, manufacturing – has contributed to Actiforce's pride in the value of each team member, the type of workplace they need, and the multi-faceted nature of modern workplace design.

Movement begins here, and the revolution is just getting started. For us today, that means stepping into every type of workplace; from offices, to warehouses, hospitals, kitchens and homes. We want to bring healthy living to every place of work.

### **COMPANY PROFILE**

Air Adventure Flying Club is a flying club that offers training programs to become pilot (PPL), AAFC has full-time flight and ground instructors to teach and share about how to fly an aircraft. AAFC also developed its own sophisticated booking system, tracking and advisory system called SQUAWK where members and students can book their flight anytime from sunrise to sunset. Furthermore, members with license can rent a plane, while those with no license can book flight with pilot and have an experience as co-pilot during the flight.

Air Adventure Flying Club (AAFC) is a premier aviation training organization that aims to provide enthusiasts with a thrilling and rewarding experience. Our club is dedicated to promoting the joy of flying and fostering a vibrant community of aviation enthusiasts. Our mission is to make the skies accessible to everyone offering a safe, enjoyable and educational environment for aspiring pilots and aviation enthusiasts. AAFC is operating the largest fleet of Cessna in Southeast Asia. AAFC has full-time flight and ground instructors ready to teach and share with you to fly an aircraft. We are committed to excellence in all aspects of our services, striving to deliver the best flying experiences possible.

### **COMPANY PROFILE**

Airfoil Services Sdn Bhd specialises in the overhaul and repair of Low Pressure Turbine (LPT) Blades and High Pressure Compressor (HPC) Blades and Vanes for commercial aircraft turbo-fan engines of the GE CF6/CF34 series, CFMI's CFM56 series, IAE's V2500 series and the new GP7000 utilised by the Airbus A380. With efficient Turnaround Times (TAT), High On Time Delivery (OTD) rates and state of the art repairs, our customers are assured of receiving their engine part sets on time. In 1991, Airfoil Services Sdn Bhd was founded as a joint venture between Malaysian Airlines and MTU Maintenance, based at Shah Alam. In 2003, with the dynamic patnership of a 50/50 joint venture between MTU Aero Engines GmbH (Munich) and Lufthansa Technik (Hamburg), Airfoil Services embarked on a new era in engine compressor blade repair. Airfoil Services is the forefront of compressor blade repair technology and is known as a centre of excellence on aircraft engine blade repair located in Malaysia.

### **COMPANY PROFILE**

Allianz Malaysia Berhad (Allianz Malaysia) is part of Allianz Group in Germany. It is an investment holding company with two wholly-owned subsidiaries Allianz General Insurance Company (Malaysia) Berhad (Allianz General) and Allianz Life Insurance Malaysia Berhad (Allianz Life).

Allianz General is the leading general insurer in Malaysia that offers a broad spectrum of products and services in motor insurance, personal lines, small to medium enterprise business and large industrial risks. Meanwhile, Allianz Life offeres a comprehensive range of life and health insurance and also investment-linked products through our distribution channels, agency, bancassurance and employee benefits. Allianz Malaysia is serving its customers through 11,233 Allianz General agents, 5,997 Allianz Life agents, and 30 One Allianz branches.

In 2024, Allianz Malaysia has also successfully completed the One Allianz customer service transformation. As such, all branches in Malaysia are now One Allianz branches that provide both life and general insurance services under one roof. Allianz Malaysia has also achieved the prestigious Great Place to Work Certified™ status in the year, with 86% of employees agreeing with the 'Great Place to Work' statement.

As a result of great customer service, Allianz continue to be the world's #1 insurer for the fifth year running according to the Interbrand's Best Global Brands Ranking 2023. In addition, Allianz General and Allianz Life ranked in the Top 5 on the Customer Satisfaction Index (CSI) in the Malaysia Insurance & Takaful Customer Satisfaction Survey 2022 (CSS).

### **DID YOU KNOW?**

In February 2024, Allianz General launched a new insurance coverage The Allianz EV Shield for electric cars under the Private Car Comprehensive policy featuring an industry first coverage of on-the-go charging. In an industry first piloting in the Klang Valley, the Allianz EV Rangers, provides on-the-spot charging enough to cover the range towards the nearest charging facility. Customers with Allianz EV Shield can also expect benefits covering the various touchpoints involved in powering up an EV including RM15,000 for losses or damages due to fire, theft and natural causes to wall boxes and RM2,000 for losses due to fire, theft and accidental causes for portable charging cables. If mishap occurs while charging using a public EV Charger, a compassionate cover of up to RM5,000 is afforded to the customer for the cost of repair or for medical expenses if the vehicle is damaged and the insured suffers bodily injuries. Furthermore, the insured is covered up to RM50,000 for third-party bodily injury and property damaged caused by the Insured's direct use of an EV home wall charger.

### **COMPANY PROFILE**

Baerlocher Malaysia Sdn Bhd (199201011861 (243364-U)) was established in 1992 in Seremban and is a wholly owned subsidiary of Baerlocher GmbH - this milestone marked the entry of the Baerlocher Group of Companies in the Asian-Pacific region. In 1994, the production plant went on stream thus the production of Baeropol for the polyolefin industry and Metal Stearates commenced during 1999 - 2001. In 2002, Baerlocher Malaysia launched the manufacturing of powder and granule PVC stabilizer One-Packs, followed by the first Cabased stabilizer One-Pack in 2006. Corresponding to the market success, the site has been continuously expanded with fully equipped analytical and application laboratory for PVC solid stabilisers in 2003. Latest addition is the installation of a special form giving line for Baeropol in 2013. Baerlocher Malaysia serves the markets in Southeast Asia (ASEAN countries) as well as in South Korea, Japan and Australia. In August 2019, Baerlocher Malaysia celebrated its 25th anniversary.

### **COMPANY PROFILE**

BASF has been operating in Malaysia for more than 30 years, through a number of wholly-owned companies and joint ventures in the country. BASF (Malaysia) Sdn Bhd was incorporated in 1989, and operates main office in Bandar Utama, a manufacturing plant in Pasir Gudang in Johor, and an operational site in Kulim, Kedah.

BASF Asia-Pacific Service Centre Sdn Bhd began its operation in 2005. Located in Wilayah Persekutuan, the regional Service Hub provides functional services to BASF Group companies in 20 markets across Asia Pacific.

BASF also provides infrastructure and utilities support services to its joint ventures BASF PETRONAS Chemicals Sdn Bhd and Toray BASF PBT Resin Sdn Bhd at an integrated Verbund site in the Gebeng Industrial Zone, Pahang.

BASF posted sales to customers in Malaysia of approximately €344 million in 2023 and had 2,460 employees as of the end of the year. Further information is available on www.basf.com/my.

### **COMPANY PROFILE**

BASF Asia-Pacific Service Centre Sdn Bhd, also known as Service Hub Wilayah Persekutuan, is strategically located in the capital city of Malaysia. Since its inception in August 2005, the hub has expanded from 130 employees to over 1,200 employees currently and is expected to keep growing.

As an ISO 9001 certified organization, the Service Hub is committed to delivering high quality expertise and services in various areas. These include finance, controlling, human resources, real estate and facilities management, communications, environmental, health and safety, procurement, import-export order management, and information services.

We take pride in providing our business services to BASF companies and affiliates across 20 countries in the Asia Pacific region. Moreover, we offer our services in 8 different languages to cater to the diverse needs of our stakeholders. Our focus on competency and technology-driven solutions allows us to consistently deliver exceptional services, thereby contributing to the success of our businesses.

### **COMPANY PROFILE**

**New Automation Technology** 

Beckhoff implements open automation system using proven PC-based control technology. The main areas that the product range covers are industrial PCs, I/O and fieldbus components, drive technology, automation software, control cabinet-free automation, and hardware for machine vision. Product ranges that can be used as separate components or integrated into a complete and mutually compatible control system are available for all sectors. Our New Automation Technology stands for universal and industry-independent control and automation solutions that are used worldwide in a large variety of different applications, ranging from CNC-controlled machine tools to intelligent building control.

### PC-based control technology

Since Beckhoff's foundation in 1980, the development of innovative products and solutions on the basis of PC-based control technology has been the foundation of the company's continued success. We recognized many standards in automation technology that are taken for granted today at an early stage and successfully introduced to the market as innovations. Beckhoff's philosophy of PC-based control as well as the invention of the Lightbus system and TwinCAT automation software are milestones in automation technology and have proven themselves as powerful alternatives to traditional control technology. EtherCAT, the real-time Ethernet solution, provides a powerful and future-oriented technology for a new generation of control concepts.

"Engineers must save the world!"

Beckhoff offers wide range of trainings, consultancy and support services. Beckhoff solutions for Industrie 4.0 and IoT promote simplicity, openness and standardisation. Beyond the scope of conventional control tasks, applications such as big data, data mining and condition or power monitoring enable the implementation of superior, forward-looking automation solutions. In Malaysia, we have branches in Penang (northern region), Kuching (East Malaysia and Brunei region), Johor (Southern region) and headquartered in Petaling Jaya, Selangor.

### **DID YOU KNOW?**

With the launch of MX-System in November 2021, Beckhoff now offers a flexible, space-optimised, and intelligent system solution that completely replaces the conventional control cabinet in a bid to revolutionise control cabinet construction and automation altogether! MX-System opens up entirely new possibilities in plant automation. As a modular control cabinet replacement that can also be decentralised on the machine if required, the MX-System saves engineering, assembly, installation and maintenance effort.

### **COMPANY PROFILE**

Coalition for Business Integrity Bhd (CBI) was established on 26 September 2014 by a group of concerned professionals who witnessed decades of erosion of integrity in both private and public domain that has undeniably impeded productivity growth and driven up the cost of living. We aspire to see changes on the ground by engaging with the people, government of the day, civil societies, business councils, trade associations, missions etc. CBI key objectives are partly to champion a culture of business integrity in Malaysia mitigating business risks and to combat fraud and leakages as well as ESG compliance. Our vision is to promote a market place of integrity, good management practice, sustainability and positive work attitude with enhanced productivity in Malaysia.

### **COMPANY PROFILE**

Coara Solar develops and builds utility scale renewable energy projects for commercial and industrial rooftops, large scale ground mounted Solar Utility Farms and Solar Island solutions in Malaysia and in Southeast Asia. We customize technical and financial solutions specifically for owners of commercial rooftops who will benefit from using Solar energy for self-consumption. This includes flexible containerised Solar Hybrid Containers for decentralised green energy generation and local distribution "Out of the box". These solutions aim to serve the upcoming EV infrastructure to make EV charging available off the grid. We are committed to developing and designing Solar System Solutions that provide the highest returns for our customers. Our mission and vision are to partner with our customers to provide innovative and sustainable technology solutions to help them increase productivity, reduce costs and minimise risks and to lead and contribute to the construction of a sustainable future to meet human needs.

Coara Solar has built and commissioned the largest solar tracker field in Malaysia (116 MWP Coara Marang). We continue to develop large scale solar farms partnering with leading International solar Companies to thrive on the momentum towards fulfilling the Malaysian Energy Transition road map. We align and match local business principles with international bankable standards that are required to achieve a sound financial close to ensure that projects are successfully implemented. By combining German market experience and proficiency in Solar PV Technology to develop emerging markets that have established a renewable energy act and a regulatory system that is backed by laws governing the implementation of Solar system in the country. Our clients benefit from our experiences being pioneers with in-depth knowledge in the development of solar projects in Malaysia.

### **DID YOU KNOW?**

The solar project in Tawau, Sabah, aims for a total capacity of 7.5MWp, covering 25 hectares. Utilizing 11,424 Tier 1 bifacial modules on single-axis trackers, it ensures maximum energy production year-round. This installation produces enough clean energy to meet the annual needs of 3,300 households, saving up to 9,000 tons of CO2 emissions each year, significantly reducing its carbon footprint and contributing to a greener future.

### **COMPANY PROFILE**

Manufacturer of plasma-coated wound wire filters for oil and gas wells at risk from sand ingress.

### **COMPANY PROFILE**

CONSTANTIN is an independent network for audit, tax and advisory services with a unique operating model over the world. For more than 50 years, the firm has stood for quality, precision and integrity in assisting European and North-American groups with all aspects of their financial reporting, cross-border operations, and growth opportunities. The firm is built on the principle of adopting an integrated approach to guarantee responsiveness and consistent quality of service to enterprises of all sizes with international operations. Unlike global networks of firm members, we focus on close interdisciplinary and cross-border collaboration of integrated teams inside one single organization. With offices located in more than 10 different countries across Asia-Pacific, we are able to serve transnational organizations as a one-stopshop. In Asia-Pacific, we combine the ability to ensure high quality practices with the understanding of local regulatory frameworks to adapt to particular context of expanding across dynamic markets and fast-changing environments.

### **COMPANY PROFILE**

DEAXO was established in 2014 by a tightly welded team of German engineers and technical experts, sharing the same values, with more than 20 years of solid background gained in industry's majors. Initially based in Dresden (Germany) to serve the clients in the Silicon Saxony. Soon afterwards we have responded to the demands of the Russian high-tech industry and set up a legal entity in 2015. In 2017, after registration in Malaysia and the successful execution of projects in APAC region, DEAXO Malaysia was founded in 2020. DEAXO is an international operating company with several projects worldwide and over 60 employees. We provide comprehensive and professional services for high technology market such as semiconductor, pharma, food and automotive industry. Our solutions range from standard engineering services to turn key EPC(M) Engineering, Procurement, Construction (Management) projects.

### **COMPANY PROFILE**

DefDevice Sdn. Bhd. is a Malaysian registered company based in Wilayah Persekutuan, founded by Dano Falk in 2017.

As a Digital Marketing Agency, we serve clients all over the world. We specialise in creating and implementing tailor-made marketing strategies that best fit your current business needs and set you up for optimal future growth.

Our services include Mobile App creation (we had the honour to create the mobile app for MGCC), Webdesign, Social Media Management, Press Releases, Lead Generation, CRM, Ecommerce Store Creation and Management, Selling on Amazon, and more.

Some of our past and current clients are: Siemens, EADS, Infineon, STM, Bosch, Peak Human Performance, F45 Fitness, and many more.

We understand both - the agency perspective and the business owner's perspective. Because we have created, grown, and run multiple online businesses.

Let's get in touch and discuss how we can help you with your current online marketing needs.

### **COMPANY PROFILE**

DEININGER CONSULTING was founded in 1981 by Mr Thomas Deininger as an equity partner-based executive search firm in Frankfurt. We began developing the markets in Eastern Europe in the mid-1990s and launched our successful practice in hotspots in Asia in 2004. Currently, most of our customers are industrial hidden champions with headquarters in Germany and sales and production sites all over the world. Our core services are the placement and assessment of executives, taking into account the intercultural background. Our managing partner for Malaysia and Southeast Asia is Lodowing Insiun. In 2002 he completed his studies in Southeast Asian Studies and Economics at the University of Bonn with a master's degree. Since 2003, Lodowing has been active in executive search and recruiting mostly for German companies in Mainland China and Southeast Asia.

### **DID YOU KNOW?**

Based on our survey, we forecast salary increases of up to 30 percent for employees in the semiconductor industry and related R&D areas over the next two to three years in Malaysia. This trend is not only due to the increased global demand due to artificial intelligence requirements, but rather due to the relocation of manufacturing sites out of China.

# **COMPANY PROFILE**

Doeka Maschinenbau Germany commenced operations back in 1967, the company has grown rapidly to become a global leader in the development of production, testing, packaging machinery, laboratory equipment, quality control of condoms, surgical and examination gloves as well as protective gloves. We are also a supplier of machinery and equipment for medical device manufacturers. Our machines are used by market leaders and prestigious testing institutes in over 40 countries world wide. Our subsidiary Döka Asia represents our commitment to enhance service and reduce costs to our customers. Döka has built a reputation over the decades for both high quality machine fabrication, machine system and processing, and manufacturing technology. We have long recognised the need for continuous improvement and refinement, enhancing quality, capability and performance.

# **COMPANY PROFILE**

As a specialised and ISO 9001-certified company, Dr Kornder Anlagen- und Messtechnik GmbH & Co. KG is a reliable partner, creating and implementing innovative solutions for professional and efficient high-quality industrial waste-water treatment, exhaust air cleaning, chemical distribution and ultrapure water production. Our three business divisions are system engineering, process measuring and control technology as well as speciality chemicals. In all our three divisions, our core competence stretches from initial consultation to development and further to realisation. Worldwide experience gained in numerous projects in plant construction and modification allows us to alter and modify existing system or develop new system for waste water treatment, exhaust air cleaning, chemical distribution and water purification. For industrial waste water treatment system, we offer speciality chemicals and professional consultation in order to ensure the efficient operation of the plants.

# **COMPANY PROFILE**

DRB-HICOM EZ-Drive Sdn Bhd (also known as Avis Malaysia) is the licensee of Avis Rent A Car in Malaysia. The company was established in Malaysia in 1972 and was acquired by DRB-HICOM through EON Berhad in June 2014. The Avis brand is globally recognized as one of the leading car rental brands, offering short-term rentals and long-term leases to both business and leisure travelers in over 180 countries, with approximately 11,000 locations worldwide.

Avis Malaysia currently operates 18 rental locations and 2 site offices throughout the country. Whether for work or leisure, we offer customers a comprehensive range of professional mobility services and solutions, specializing in vehicle rental, leasing, and fleet management services for individuals and businesses alike.

In recognition of our exceptional service standards, Avis Malaysia was honoured with The Brand Laureate Award for 'Most Favourite Brand for Rent-A-Car Solutions' in Malaysia 2018/19, received in May 2018. Additionally, we have been awarded the title of 'Malaysia's Best Car Rental Company' for both 2021 and 2022. Furthermore, Avis was recognized for providing an outstanding customer experience in 2022 and was voted Best Customer Experience for Car Rental' at the Asian Experience Awards.

### COMPANY PROFILE

DSV - Global Transport and Logistics. DSV provides and manages supply chain solutions for thousands of companies every day - from the small family run business to the large global corporation. 55,000 employees in more than 80 countries work passionately to deliver great customer experiences and high-quality services - and help ensure a steady supply of goods to production lines, outlets, stores and consumers all over the world. DSV is organised into three divisions offering the complete range of services to support our customers' entire supply chain: Air & Sea - transportation by air and sea, Road - transportation by road and Solutions - warehousing and logistics services. 1,400 offices, terminals and warehouses across the world enable us to be close to our local markets while taking advantage of a global perspective and network to secure the best possible service at highly competitive rates. Whatever you need, whenever and wherever you need it, we move it.

### **COMPANY PROFILE**

Established by the famed Sarkies Brothers in 1885, whose architectural landmarks also include the Raffles Hotel in Singapore, the Eastern & Oriental (E&O) Hotel in Penang island is the only hotel in the heart of the George Town UNESCO World Heritage Site that possesses prime sea frontage. The original site of the E&O Hotel, the Heritage Wing, features 100 elegant and expansive suites that retained its unique colonial charm whilst offering modern comforts with round-the-clock butler service. The E&O unveiled its new extension in March 2013 - a 15-storey building named the Victory Annexe, its namesake being an old block of the hotel so named after the British victory in World War I. The Annexe adds a further 132 classically appointed, sea-fronting suites, complemented by new restaurants, meeting rooms, pool, spa, and niche retail outlets. Today, the luxurious 232 all-suite hotel stands as the grand dame of heritage hotels, its distinctive classic elegance and grace of service enhanced with time.

### **COMPANY PROFILE**

Amari is ONYX Hospitality Group's most established chain of hotels, with a culture that proudly celebrates contemporary food, arts, design, architecture, wellness, festivities and fun. We are a 453-key business convention hotel, reigning as the flagship hotel of Amari Hotels & Resorts in Malaysia under the ONYX Hospitality Group. Hotel comprises of accommodation rooms, executive lounge facility, function rooms and outdoor event spaces, 4+1 F&B outlets, 2 swimming pools, spa and upcoming Rooftop Sky Bar (D'Observatory), the first in Bayan Lepas.

### **COMPANY PROFILE**

Exyte (Formerly known as M+W Group) is a global leader in design, engineering and construction, delivering ultra-clean and sustainable facilities for hightech facilities. Established over 100 years ago in Stuttgart, Germany, Exyte has developed a unique expertise in controlled and regulated environments and evolved to become a global EPC company that offers a full range of services from consulting to the managing of turnkey solutions for high-tech facilities today. We operate in more than 20 countries and have around 9,900 highly experienced employees worldwide who deliver many of the world's most challenging and technically demanding facilities for clients in markets such as semiconductors, batteries, pharmaceuticals, biotechnology, and data centers. Exyte established its presence in Asia more than 30 years ago with its first project in Taiwan. It has since expanded and built facilities for numerous clients in the region. In 2006, Exyte executed the first project in Malaysia and over the last two decades, the team in Malaysia has successfully designed and built numerous high-tech projects for customers in various sectors including semiconductor, bio-pharmaceutical, medical devices, specialty chemicals and data centers. Currently Exyte Malaysia has more than 700 employees and offices in Penang and Kuala Lumpur.

# **DID YOU KNOW?**

Founders Karl Meissner and Paul Wurst invented the "ideal wood-chip catcher" before the First World War broke out. The device was created to extract flying wood chips and saw dust at a carpenter's workshop. The simple invention evolved to more sophisticated air ventilation system, and later, cleanroom technology. The picture illustrates an air extraction equipment in a carpentry workshop.

# **COMPANY PROFILE**

Festo AG & Co. was established in Esslingen, Germany, in 1925. Since then, the company has become a global key player in the field of automation. Today, Festo offers its products and services at over 250 branches world-wide and contributes significantly to the development of automation technology in the host country. Festo Malaysia, for example, has trained more than 35,000 technical personnel in industrial automation and has provided thousands of automation solutions to its customers. Festo AG & Co established its Malaysian operations in 1979. Today, its Malaysian network covers Wilayah Persekutuan, Penang, Malacca and Johor Bahru. All branch offices are linked to the Kuala Lumpur head office, which in turn taps on to Festo's worldwide communications and information network in Germany.

# **COMPANY PROFILE**

Fichtner was founded in 1922 and has been providing consulting and engineering services to public utilities, industry, federal and local authorities, research institutes and international development banks for more than eight decades. With its Home Office in Stuttgart as well as subsidiaries, affiliates, branch offices and project offices in over fifty countries, the Fichtner Group is active worldwide to make up an international network through which services have been and are presently being rendered to clients in more than 100 countries. This means that Fichtner possesses in-depth knowledge of local conditions and so it has the ability to offer highly qualified services at reasonable cost. Fichtner is an independent and privately owned company rendering consultancy services only, with no ties to manufacturers, suppliers or construction companies.

# **COMPANY PROFILE**

Fischer is your experienced partner for innovative measurement technology. Today, measurement and analysis instruments from FISCHER are used around the world in diverse sectors wherever precision, reliability and easy operation are required. We find out how we can provide our customers the best quality possible through competent and expert consultation, starting with the very first contact and continuing through to the creation of individual service concepts. These close collaborations combined with our drive to innovate repeatedly form the basis for new metrological solutions. The Helmut Fischer Group is a global leader in metrology solutions for coating thickness and materials composition analysis for single and complex layer stacks as well instrumented indentation testing and general material analysis such as Ferrite contents, Conductivity Testing and Nanoindentation Hardness. Applications of these cuttingedge metrology solutions are present in leading semiconductor manufacturers world-wide for FEOL as well as BEOL and advanced packaging solutions.

# **COMPANY PROFILE**

FLORTECH has been specialising in the development of polyurethanes and epoxy resins for a wide range of applications with our European partners. We develop finished products for industrial customers, which are used in the areas of food and beverage, warehouses, industrial kitchens, car parks, and many other areas. For industrial applications, the enduring high-quality products and efficient manufacturing processes are important to always stay one step ahead in international business. Our production facility in Malaysia ensures reliability, quality and efficiency through automated processes and quality controls. We supply to a wide range of customers thru out Asia Pacific e.g. South Korea, Thailand, China, Vietnam, etc. Our many years of experience help us to achieve the development goal quickly and efficiently. Durability, temperature resistance, wear resistance and resistance to external influences are just some of our development goals.

# **COMPANY PROFILE**

Fresenius Kabi is a global healthcare company that specializes in lifesaving medicines and technologies for infusion, transfusion and clinical nutrition. The company's products and services are used for the therapy and care of critically and chronically ill patients. Our product portfolio comprises a range of highly complex biopharmaceuticals, clinical nutrition, medical technologies, and I.V. generic drugs. Within biopharmaceuticals, we offer, among others, biosimilar drugs with a focus on autoimmune diseases and oncology. Our clinical nutrition portfolio includes a wide selection of enteral and parenteral nutrition products. In the segment of medical technologies, we offer vital disposables, infusion pumps, apheresis machines, cell therapy devices and more.

Fresenius Kabi puts essential medicines and technologies in the hands of people who help patients and finds the best answers to the challenges they face.

### **COMPANY PROFILE**

Fresenius Medical Care is the world's largest integrated provider of products and services for individuals undergoing dialysis. We provide complete solution for patients with chronic kidney failure - from research and development to manufacturing dialysis products to providing therapy options. With 4,000 dialysis clinics and more than 346,500 dialysis patients in approximately 50 countries, Fresenius Medical Care operates by far the largest and most international network of clinics. Fresenius Medical Care Malaysia Sdn Bhd, a subsidiary of Fresenius Medical Care AG & Co. KGaA incorporated in 2000. As a vertically integrated company, we offer products and services for the entire dialysis value chain. This includes providing marketing, sales, technical and clinical support for its full range of haemodialysis machines, peritoneal dialysis system, water treatment system, dialysis consumables, medical treatment chairs and other related products. We also own a chain of dialysis clinics providing optimal treatment and care for more than 850 patients.

### **COMPANY PROFILE**

Ge-Shen is a leading contract manufacturer headquartered in Kuala Lumpur. The company aims to become a globally recognised engineering and manufacturing solutions provider. Incorporated in 2003, we specialise in design, development and technology-driven manufacturing. We are listed on the main board of Bursa Malaysia Securities Berhad. Our four manufacturing facilities span over 500,000 square feet across Penang, Kedah, Johor, and Hanoi (Vietnam), serving customers from the US, Europe, and Asia.

We are a manufacturer of precision components, providing superior capabilities in innovative mould design & fabrication, injection moulding, compression rubber, liquid silicone rubber, surface finishing, and boxbuild assembly to our customers. Our customers come from sectors such as medical devices, security devices, industrial applications, consumer electronics, office automation and home appliances.

We aim to partner with customers, providing a one-stop manufacturing solution and accelerating product speed to market. To serve our customers better and remain competitive, we continually invest in technical capabilities, automation, infrastructure, and staff.

Our recent expansion into the Electronics Manufacturing Services (EMS) segment allows us to provide services such as printed circuit board assembly (PCBA), product box building, and cable and wire assembly. This signifies our entry into the semiconductor industry and our dedication to meeting evolving market needs.

In addition to being ISO 14001 and 9001 certified, three of our subsidiaries Polyplas Sdn Bhd, Ge-Shen Plastic (M) Sdn Bhd and Kibaru Manufacturing Sdn Bhd, proudly boasts ISO 13485 certification, ensuring top-tier quality management for medical devices.

Our presence in Malaysia and Vietnam benefits significantly from the "China+1" strategy, which allows us to offer more stable and cost-effective solutions to our clients, positioning us as an attractive alternative for international businesses seeking to diversify their supply chains away from China while capitalising on Malaysia's resource strengths and favourable manufacturing environment.

# **DID YOU KNOW?**

Ge-Shen Corporation is a fast-growing, certified EMS company serving customers from USA, Europe and Asia? With its various manufacturing site in Malaysia and Vietnam, is able to provide multi-commodity solutions to its customers and complete box-build for its customers.

### **COMPANY PROFILE**

As an international educational organization, we at GEP consult, place and support students at German boarding schools and universities. With our tailor-made programs, such as the GEP school preparation course (SVK Schulvorbereitungskurs), GEP 360° Care, GEP Academy and individual coaching & mentoring, we support our students in all academic matters and promote their intercultural skills through cross-border exchanges. In accordance with our mission to connect cultures through education, we want to educate students to be responsible global citizens and promote a cosmopolitan society.

### COMPANY PROFILE

The German Speaking Society Kuala Lumpur is a Society and, metaphorically speaking, a home away from home for German, Austrian and Swiss nationals. Our society gives interested people in Malaysia an insight into German-speaking cultures and promotes friendship and understanding of Malaysia's cultural diversity. The Society endeavors to bring together people of different nationalities and cultures living in Malaysia through a host of activities, building a bridge to provide a platform for an exchange of information and unity on issues of common interest.

The Society produces the only German language publication in Malaysia, the KL-Post on a bi-monthly basis. Regular meetups are hosted such as the Sundowner and Coffee mornings, as well as activities including visits to places of interest in and around Kuala Lumpur and beyond, lectured walking tours to the highlights of Kuala Lumpur as well as luncheons and outdoor activities.

The highlight in the Society's Calendar of Events is the annual Christmas Charity Bazaar, where the profit generated is donated to charitable organisations.

### **COMPANY PROFILE**

Geutebrück offers a comprehensive range of solutions that combine hardware and software, allowing deep integration and scalability to meet the evolving needs of our customers. Our Video Management System (VMS) are designed with a significant capacity to manage big data and facilitate fast and efficient visual management, providing protection for people, property, and assets across various market segments globally.

Some of our key solutions include:

- •Dual architecture database: Seamless integration of video footages with third-party metadata such as bar code scanners, license plate recognition, access cards, POS system, and face recognition.
- •Track & Trace functionality: Rapid search functions using metadata, enabling quick identification and retrieval of relevant video footage in a matter of milliseconds.
- •High Speed Motion Search: Efficient tracking and tracing of motion within secured or highly confidential areas for enhanced security measures.
- •3D face recognition through a 3D reconstruction model, ensuring accurate identification and authentication.
- •Perimeter Protection: Comprehensive virtual perimeter fencing for effective intrusion detection and prevention.
- •Security Information Management Software (G-SIM): Capable of handling security information management across multiple sites, providing centralized control and monitoring.
- •Artificial Intelligence-based occupational safety management solution: Customizable detection of safety helmets and/or vests for enhanced workplace safety.

These solutions, in addition to the performance, reliability, and quality, are synonymous with Geutebrück products and solutions worldwide, making us an ideal partner for businesses seeking advanced video surveillance and security solutions.

### **COMPANY PROFILE**

GFW International is a German educational company which will have an independent subsidiary in Malaysia from 2022. All members of the management have more than 20 years of experience in education. Our main target is to bring the "German Dual Vocational Training" to foreign countries. # **COMPANY PROFILE**

GM Tan & Company (Advocates & Solicitors) (Registered Trademark Agent) is a global, multiple-award winning law firm established since 2012 and currently operating in Centum Oasis Corporate Park, Ara Damansara.

We are proud to be a global chain of heartbased lawyers with a practice mainly in commercial and corporate, debt recovery and employment law. Our law practice also incorporates mindfulness to assist each client to manage issues that can be incredibly stressful so that they can focus on navigating their legal journeys comfortably and authentically.

Due to our unique make up, we have been able to serve a diverse range of corporate and individual clients with a global identity or background for the last 12 years and continuing. From advisory, support to court representation and training, we feature a turnkey legal service for our clients.

It is our end vision and mission to be a legal vehicle of sustainable resilience and stability for the ones we serve.

# **COMPANY PROFILE**

GMT Gummi-Metall-Technik have specialised for more than 35 years in the development and production of rubber elements and rubber to metal bonded mountings. A major part of our research and development activities are dedicated to the rail vehicle sector.

GMT's antivibration system are developed using complex linear and non-linear calculation methods. All of our production plants have modern production and testing facilities. GMT is proof that an innovative approach to customer's tasks, together with creativity, flexibility and economic costing are key factors required to become a leading company in the antivibration industry.

As GMT are involved in many projects, including the development of parts for new high speed bogies or production of spare parts for private tram operators, we benefit from a constant exchange of information and expertise between all parties involved. Our successful co-operation with both OEMs and operators is proof that they value our approach and the possibility to reduce development times and costs.

Since its foundation in 1871 by Carl Heinrich Hellmann, Hellmann has developed into one of the largest international logistics providers. More than 150 years of experience embodied by the best minds in the logistics industry, we are one of the largest family-owned company among the world's leading logistics groups. With our high-performance products Airfreight, Seafreight, Road & Rail, and Contract Logistics, we always offer the right solution for the complex logistics requirements of our customers and rely on future-oriented digital services for maximum transparency and more efficient supply chains. Today, Hellmann Worldwide Logistics is represented by a Worldwide Network of 489 offices in 173 countries with more than 19,500 people. In Malaysia, we have offices and warehouse located in Selangor, Penang, and Johor Bahru. We take pride in our daily actions which depend on the strong values of our Corporate DNA- FAMILY and our Vision- For The Better. Together . The core of who we are resides in the fact that we are a family-owned company and we are proud of that. We promote the essence of what it means to be a family throughout the company. We encourage our members worldwide to build strong relationships based on integrity, understanding and mutual cooperation. The owners have always, and continue to be, directly involved in the management; each decision is weighted against criteria that reach far beyond short term outcomes. We ensure the long-term viability of Hellmann so it continues to provide opportunities for generations to come. For our customers, we love to go extra miles. On the road to green logistics, we are building on the three pillars of sustainable business development, ecology, economy and social interaction.

#### **DID YOU KNOW?**

The Wild Geese More than a Company Logo

The V-shaped formation of a flock of wild geese genuinely symbolises perfect cooperation. They combine detailed planning, jointly weighing out risks, and excellent communication with absolute loyalty and responsibility.

Therefore, the wild geese are more than a company logo for us, they symbolise our holistic philosophy as a family business and full-service logistics provider.

#### **COMPANY PROFILE**

ifm electronic Pte Ltd (Malaysian Branch) main function is to look after our customers in Malaysia through developing rational concepts for automation to suit customer's requirements with regard to ifm sensors and providing technical support and training locally. ifm – close to you! Close customer contact, quality and innovations are our strengths. The ifm group of companies continuously optimises technical processes in almost all industries and is thus one of the world's leading manufacturers in the automation industry. More than 8,100 employees in over 180 countries worldwide develop and market solutions for over 161,000 customers in machine construction and other industries. We are where you need us: right at your side. Our goal: to find your individual solution and tread new paths.

#### **COMPANY PROFILE**

The IMPREG Liner GL16 was developed for all common pipes from DN 150 to DN 2000 for sustainable and efficient trenchless sewer rehabilitation. With very good material parameters and a new glass fibre construction, more filigree gradations in the wall thicknesses can be produced. This benefits our customers economically. At the same time, there is a technical advantage: The IMPREG Liner GL16 makes it easier to handle larger dimensions. With the IMPREG Liner GL16, the IMPREG Group has consistently expanded its position as technology. CIPP TECHNOLOGY HOLDINGS APS our IMPREG Group's owner envisioned: If you want to make a difference in the world, you must go new ways. We recognized early on that trenchless pipe rehabilitation with pipe liners is the technology of the future. The success speaks for itself. Another innovative milestone was the development of the world's first DN 2000 GRP pipe liner in Italy, April 2021.

# INFINEON TECHNOLOGIES (MALAYSIA) SDN BHD

Mr Eng Seng Meng Senior Vice President & Managing Director

Mr Florian Herrmann Chief Financial Officer (CFO)

P.O. Box 52, Free Trade Zone Batu Berendam 75350 Melaka

Tel : +60 6 232 5266

**Email**: tracy.ow@infineon.com **Web**: www.infineon.com

#### **COMPANY PROFILE**

Infineon Technologies AG is a global semiconductor leader in power system and IoT. Infineon drives decarbonization and digitalization with its products and solutions.

The company has around 58,600 employees worldwide and generated revenue of about €16.3 billion in the 2023 fiscal year (ending 30 September). Infineon is listed on the Frankfurt Stock Exchange (ticker symbol: IFX) and in the USA on the OTCQX International over-the counter market (ticker symbol: IFNNY).

In Malaysia, Infineon's operations encompass the entire semiconductor value chain and end-to-end manufacturing process. With over 14,000 employees as of 2024, Malaysia is Infineon's largest country base globally, comprising about 25% of the company's workforce.

Infineon Technologies (Kulim) Sdn. Bhd. is the company's first and only wafer fabrication facility in Asia. It is the largest 200mm Front-End manufacturing site, and it is on track to become the world's largest 200-millimeter silicon carbide (SiC) power fab.

Infineon Kulim, established in 2006, has significantly contributed to developing Malaysia's electronics and electrical (E&E) ecosystem and talent pipeline. With over 4,000 employees, it plays a vital role in Malaysia's industrial transformation and economic growth. Additionally, Infineon Kulim is part of Malaysia's National Industrial Master Plan (NIMP) 2030 "Mission Based Project (MBP1.2)," introducing advanced wafer fabrication technology to the country.

The Infineon site in Melaka, which began in 1973 and was spun off as Infineon Technologies (Malaysia) Sdn Bhd in 1999, is now the largest backend manufacturing plant in the region. It is also one of Melaka's largest employers, with a workforce exceeding 10,500 people. The Melaka facility has evolved from a basic manufacturing site into a highly automated, connected, and controlled manufacturing environment. This transition focuses on enhancing the efficiency of equipment, materials, and processes with a highly competent workforce, further cementing its role in Infineon's global operations and Malaysia's industrial landscape.

#### **DID YOU KNOW?**

Infineon Melaka celebrated Earth Day 2024 with a focus on sustainability and community engagement Activities included tree planting by top management using compost from canteen food waste, symbolizing a commitment to environmental stewardship. A sustainable menu showcases featured dishes made from eco-friendly ingredients, encouraging conscious food choices. The Your Idea Pays (YIP) Go Green Campaign inspired colleagues to reduce their carbon footprint, rewarding innovative ideas for sustainability. Efforts to eliminate single-use plastics in meeting rooms and a waste management initiative in Infineon underscored the commitment to reduce environmental impact.

Together, these initiatives reflect a collective dedication to creating a greener, more sustainable workplace and planet.

# KERN LIEBERS TEXTILE MALAYSIA SDN BHD

**Mr Jan Erth** Vice President

No. 25, Jalan Seruling 57 Taman Klang Jaya 41200 Klang, Selangor

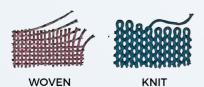

**Tel** : +60 3 3323 6953

**Email** : info-sm@kern-liebers.com **Web** : www.kern-liebers.com

#### **COMPANY PROFILE**

KERN-LIEBERS is a worldwide supplier for system vendors to the automotive, textile and consumer goods industries. The group develops and manufactures precision products of the highest quality made from steel strip and wire at over 40 locations around the world. Thanks to the size of the company, continuous technological development and the close partnerships it maintains with its customers, it has not only the experience but also the skills to offer everything from design to mass production from a single source. KERN-LIEBERS is active around the world, with nine product groups supplying the widest range of sectors. Comprehensive know-how in metal working combined with special machining processes and technology represents the core competence of the group. KERN-LIEBERS is the world market leader in high-quality power and constant force springs made of steel strip, particularly in automotive applications and in the knitting element segment for the textile machinery industry. Kern Liebers Textile Malaysia is part of the KERN-LIEBERS group and produces high quality high precision parts for textile machines, warp knitting machines to be precise. The company was established in Malaysia in 1995 and currently our team consists of around 170 employees. Our knitting parts are used in the production of textiles for car interiors, undergarments, bathing suits, PPEs and defense equipment amongst others. A typical warp knitting machines requires around 50,000 parts to guide and manipulate the yarn into the correct pattern. These 50,000 parts have to be of an extremely good and reliable quality to ensure a consistent fabric being produced by the machine. We are specialised in creating these high consistency, high quality parts for our customer resulting in a high quality fabric.

## **DID YOU KNOW?**

It is quite easy to figure out if the fabric you are looking at is knitted or woven. The simplest test is the 'stretch' test. A knit fabric will stretch easily along its width, slightly less along its length, and it may also lose its shape if stretched too much. A woven fabric will have barely any give along its width, and only slightly more give along its length. Examples of knitted fabrics are socks, bathing suits and underwear. Examples of woven fabrics include dress shirts, jeans and slacks.

## **COMPANY PROFILE**

Launchpad is your marketing and business development liftoff in Southeast Asia.

We help you set up, implement and manage your business development activities in the region. Your biggest competitors and customers are already here. With growth rates double or triple those of the West, no small or medium sized companies can afford not to be present as well. To succeed on a local market, you need someone on the ground. To employ someone you don't know and who may not know Western style management is risky.

With twenty years' first-hand experience from six countries, Launchpad can plan, set up, execute and manage your local expansion campaign in the respective country, saving you travel cost, additional staff and overhead cost.

Instead of you overloading existing staff or flying in your own people for projects they are not experts in or don't have the local knowledge for, contact us for a limited project-based assignment.

#### **COMPANY PROFILE**

Lechler spray nozzles and system are used in virtually every stage of industrial production and their performance can have a major impact on product quality and manufacturing costs. For over 140 years, Lechler has pioneered developments in spray technology for all industries, designing, developing and manufacturing products of outstanding reliability and performance. Today, Lechler offers one of the most comprehensive range of spray nozzles and system worldwide. Lechler is a truly international company, offering sales and technical support throughout the world. In addition to the headquarters in Metzingen, Germany, subsidiary companies have plants and offices in the UK, France, Belgium, Sweden, Finland, Spain, Italy, USA, India and China. Our latest affiliate company was founded in 2016 in Malaysia is our new hub for the whole ASEAN market. We also have a network of sales offices and representatives covering many other countries.

#### **COMPANY PROFILE**

#### WHY LUTHER?

#### A MAJOR EUROPEAN COMMERCIAL LAW FIRM

Luther Rechtsanwaltsgesellschaft mbH is one of the top addresses among commercial law firms in Germany. From our 10 German and 11 international offices, predominantly in the South East Asian region, our lawyers and consultants offer legal advice and/or corporate services, focusing on finding efficient and farsighted solutions that lead to the desired commercial results.

#### OUR EXPERTISE IN MALAYSIA

Luther Corporate Services ("Luther Malaysia") is represented by a team of German, French, UK, US and Malaysia qualified lawyers and, in respect of Malaysian law, further supported through an exclusive tie-up with a Malaysian boutique law firm. Our further 40 staff members, consisting of company secretaries, accountants as well as payroll and HR specialists enable us to provide comprehensive, practical solutions for our clients' activities in this dynamic growth region. We work in an integrated team structure with our local partners in order to cover the full range of our clients' legal, corporate and tax requirements. The combination of our deep understanding of the specific business and legal environment in Malaysia and our European background has proven to suit the needs of foreign companies with regard to their activities in the country.

#### **LUTHER IN ASIA**

Luther Malaysia works closely with other Luther offices across the globe. Just as in Malaysia, our worldwide teams are led by partners with many years of experience in both Asia and Europe, and are supported by lawyers, tax consultants and other professionals. To this end, our Luther offices can provide clients with comprehensive advice and assistance regarding legal and business matters, no matter where they are located.

# **DID YOU KNOW?**

Together with the French market leader Fidal, Luther founded unyer in 2021. unyer is a global organisation of leading international professional services firMs unyer is based in Zurich as a Swiss Verein. #### **COMPANY PROFILE**

M&M Militzer & Münch is an international transportation and logistics providers, based in St. Gallen in Switzerland. Its network consists of more than 100 branch offices in over 35 countries. Militzer & Münch today offers its services worldwide with an own setup in Western and Eastern Europe, in the Commonwealth of Independent States (CIS), Northern Africa, and the Middle and Far East. The Group's parent company is M&M Militzer & Münch International Holding AG, registered in St. Gallen, Switzerland. In circa 30 countries, Militzer & Münch operates its own branch offices – in Europe, North Africa and Asia. The Group moreover works with representatives and agent networks all over the world so it can offer its customers forwarding and logistics services around the globe.

#### **COMPANY PROFILE**

MDEC was established in 1996 as the lead agency to implement the MSC Malaysia initiative. Today, we are an agency under the Ministry of Communications and Multimedia Malaysia (KKMM) with a close to 25-year track-record of successfully leading the ICT and digital economy growth in Malaysia. Malaysia's central geographical location in ASEAN, its young and digitally-savvy population, multicultural and multilingual tapestry, easy access to capital and regional markets, ease of doing business, certainty of business operating environment and legal system, comparative value and high standard of living, makes it the natural choice to land and grow your digital business here. MDEC's aspiration is to firmly establish Malaysia as the Heart of Digital ASEAN, a regional digital powerhouse launching global champions to lead the Fourth Industrial Revolution, ensuring our digital economy will drive shared prosperity for all Malaysians as well as empowering Malaysians with Digital Skills, enabling Digitally-Powered Businesses, and driving Digital Sector Investments.

**Web**: www.mida.gov.my

#### **COMPANY PROFILE**

MIDA is the Government's principal investment promotion and development agency under the Ministry of Investment, Trade and Industry (MITI) to oversee and drive investments into the manufacturing and services sectors in Malaysia. The establishment of MIDA in 1967 was hailed by the World Bank as "the necessary impetus for purposeful, positive and coordinated promotional action" for Malaysia's industrial development. Today, MIDA has grown to become a strong and dynamic organisation of over 700 employees. Headquartered in Kuala Lumpur Sentral, MIDA has 12 regional and 21 overseas offices. Germany is among Malaysia's largest source of foreign investments from the EU in the manufacturing sector. Malaysia is currently the home to more than 300 German manufacturing companies ranging from small and mediumsized enterprises all the way up to large multinationals. Besides manufacturing, more and more companies have made Malaysia a hub for their global operations and regional establishments. MIDA continues to be the strategic partner to businesses in seizing the opportunities arising from the technology revolution of this era. For more information, please visit www.mida.gov.my and follow us on X, Instagram, Facebook, LinkedIn and YouTube channel.

#### **COMPANY PROFILE**

Malaysia Retail Chain Association (MRCA) provides its members with the opportunity to capitalise on the collective experiences and resources of Malaysia's premier and dynamic group of retail experts. Some of the exclusive benefits and privileges enjoyed by MRCA members are Training, Seminar & Education Programmes, Monthly Meetings, Business Trips, MRCA Yearly Events such as Chinese New Year, Anniversary, CEO Night and 8TV Entrepreneur Awards, Collaborations such as Joint Marketing & Shared Resources, Promotions of MRCA events or members' information through Facebook, websites and mobile apps. MRCA is a leading association for chain store operators and franchisors in Malaysia. It was established in 1992 to assist chain retailers in their stores' expansion and promote growth in the retail and franchise industry locally and abroad. MRCA has more than 480 leading retail chain stores operators as well as franchisors, covering more than 30,000 outlets throughout Malaysia.

#### **COMPANY PROFILE**

The Malaysia-German Society Penang was established in 1962 by a handful of dedicated and far-sighted Malaysians and Germans residing in Penang and has gained over the years the respect and support of the State Government of Penang. The Society in its efforts to promote friendship and understanding between locals and Germans in Penang have organised various functions both cultural and social to bring people together and exposing them to both the cultures of Malaysia and Germany. Thus, through the years numerous concerts were held bringing well-known German musicians and orchestras to our shores. German cultural festivities were celebrated with members and friends with the hope that Malaysians would understand better the culture of Germany. At the same time, Malaysian festivals were also celebrated with local cultural shows to project the diversity of the Malaysian culture to our German members.

# MAN TRUCK & BUS (M) SDN BHD

# Mr Andrew O'Brooks Managing Director

Mr Thayalan Subramaniam

General Manager and Head of Sales and Customer Solutions

PT5030 Jalan Jangur 28/43 Seksyen 28 40400 Shah Alam Selangor, Malaysia

Tel: +60 3-5101 9933 Email: man-malaysia@man.eu Web: www.man.com.my

#### **COMPANY PROFILE**

MAN Truck & Bus (MAN SE) is one of Europe's leading commercial vehicle manufacturers and providers of transport solutions with annual sales of around €14.8 billion in 2023. The product portfolio includes vans, trucks, buses, diesel and gas engines as well as services related to passenger and freight transport. MAN SE, a TRATON SE company and part of the Volkswagen Group, employs approximately 33,000 people worldwide.

Today, MAN Truck & Bus has evolved from a vehicle manufacturer to provider of intelligent and sustainable transport solutions, demonstrating technology leadership in key areas such as driver assistance system, engine efficiency system, digital connectivity and networking.

MAN Truck & Bus (M) Sdn Bhd (MAN Malaysia) is a wholly-owned subsidiary of MAN SE. Headquartered in Shah Alam, Selangor, MAN Malaysia locally assembles technologically advanced, low-emission EURO V-powered MAN Trucks and Buses that have become the preferred solutions of Malaysian transporters. MAN Malaysia currently operates four full fledged branches in Shah Alam, Port Klang, Prai and Johor Bahru. MAN also has Service Partners in Alor Setar, Kuala Terengganu and Kuantan.

#### **DID YOU KNOW?**

Committed to driving sustainability in the transport sector, MAN Malaysia is the first heavy commercial vehicle manufacturer in Malaysia to offer low-emission EURO V engines as standard across its entire Truck and Bus portfolios. Launched in 2021, the MAN TGS is now the best-selling EURO V truck in Malaysia. In 2023, MAN announced that its popular bus/coach chassis would also be equipped with EURO V specification engines. MAN's range of proven diesel engines has also been B100-ready since 2018.

#### **COMPANY PROFILE**

Industrial architecture and consulting worldwide

The MPS ARCHONIC Group employs 130 people *worldwide* and is your partner of choice for consulting and architecture services for industrial projects around the globe.

With our own corporate entities in Germany, China and India and project offices in 40 countries, we plan and execute your projects worldwide. We support you all the way: from finding a suitable site to designing your value stream. We also make sure that your new production site is ready for kick-off and supervise the successful start of your new production line.

With our Malaysian project office, we operate as general planners and project managers for the successful establishment and construction of state-of-the art company facilities. We support our clients from site selection and analysis to building planning and construction supervision. We enable your company to implement innovative and value adding work flows that ensure the optimal flow of production, logistics and business processes. In Malaysia we have successfully implemented factories, offices and research buildings. All of them in accordance with international standards, but always adapted to local requirements and preferences to ensure a perfect solution for the Malaysian market.

# **DID YOU KNOW?**

In Malaysia roofs require different specifications/design to ensure that the roof of your new factory premises can cope with the large amount of rain that falls during the rainy season! This is only one of the many factors which need to be kept in mind when planning and constructing a new building in Malaysia - knowledge and experience which we are happy to provide to you for the set-up of your new Malaysian premises!".

# **COMPANY PROFILE**

NAUE Asia Sdn Bhd is an EN ISO 9001-certified company which was incorporated in 2010 and is a daughter company of NAUE GmbH & Co. KG. Our innovative ideas are leading the way into the future of geosynthetics and their applications. Over the years, our product range and fields of application have continuously grown, and the growth of our group of companies has kept pace. We now offer product development and design, with a design-by-function and application approach, to satisfy even the most challenging project objectives. Our product portfolio meets all the requirements of geosynthetic functions, such as filtration, separation, protection, drainage, erosion control, sealing and reinforcement. Our products deliver superior technical, economical and ecological solutions for geotechnical construction projects. The range of applications covers everything from foundation improvement, flood defence, environmental engineering, base course reinforcement, tunnel sealing, dam construction, landfills, hazardous waste containment to sea and to scour protection of offshore plants and other hydraulic engineering measures.

#### **COMPANY PROFILE**

The company NIRONIT celebrated its 40th anniversary in July 2022. We invest annually in the expansion of our stock assortment. Our second main pillar, the service center with its own water jet system, plasma system and saws, will soon be will soon be expanded with a new laser system, straightening system and grinding system, so that we will be able to meet all our customers' requirements as quickly as possible in the future. Our strengths are the stocking of classic stainless steels, such as 1.4539, 1.4404,1.4571, 1.4313 and 1.4541. In addition, we carry numerous special grades, which are used in various apparatus, plants and projects.

## **COMPANY PROFILE**

OPM GmbH, a core team of project managers have been dedicating themselves to project management in industrial, office, research facility and special construction undertakings for over 20 years. In doing so, OPM aimed to become the catalyst for successful projects, and have specialized in its development and orientation.

Therefore, one of the principles is that the team accompany and support teams in their sustainable and self-reliant cooperation. To make this work, OPM deeply immerse themselves in the task at hand, and make it their own. This helps supporting teams in organizations and new joint ventures in the development and realization of their own project, developing suitable tools with them and supporting their application.

One of the company interests is to work with large groups in a yet unknown solution space. To work on solutions were shear forces come into play, in order to develop suitable structures for the project out of them, is demanding and fulfilling. Instead of reproducing processes from blueprints, OPM only recommend what they are personally convinced of: The things that the team have thought through and scrutinized.

## **COMPANY PROFILE**

Paessler believes monitoring plays a vital part in reducing humankind's consumption of resources. Monitoring data helps its customers save resources, from optimizing their IT, OT, and IoT infrastructures to reducing energy consumption or emissions – for our future and our environment. That is why Paessler offers monitoring solutions for businesses across all industries and all sizes, from SMBs to large enterprises. Paessler works with renowned partners, and together they tackle the monitoring challenges of an ever-changing world.

Since 1997, when Paessler first introduced PRTG Network Monitor, it has combined its in-depth monitoring knowledge with an innovative spirit. Today, more than 500,000 users in over 170 countries rely on Paessler PRTG to monitor their complex IT, OT, and IoT infrastructures. Paessler's different products empower its customers to monitor everything and thus help them optimize their resources.

Helps. Cares. Protects.

#### PAUL HARTMANN AG

Mr Thomas-Garry Stiller Chief Procurement Officer

Paul-Hartmann-Strasse 12 89522 Heidenheim Germany

Tel: +49 (0) 7321 360 Email: presse@hartmann.info

Web: https://corporate.hartmann.info

#### **COMPANY PROFILE**

The HARTMANN GROUP is one of Europe's leading providers of system solutions for the medical and healthcare sector along with support services. Its portfolio is augmented by consumer-based medical ranges, along with care products and cosmetics. The company's core expertise lies in the areas of Wound Care, Incontinence Management, and Infection Management.

HARTMANN's history dates back over 200 years. Founded in 1818 in Heidenheim, Germany, the company is nowadays represented by its own subsidiaries in 36 countries and produces and sells its diverse portfolio to over 130 countries around the globe.

In 2019, HARTMANN redefined its strategy and initiated the Transformation Program. By implementing this strategy consistently, HARTMANN is strengthening its market position and creating the conditions that allow it to take advantage of opportunities for industry transformation to the benefit of customers, shareholders and employees.

The strategy largely pursues four objectives. These include an increased rate of innovation, a significant improvement in the cost position throughout the entire value chain, the development of digital services and business models and a significantly greater focus on core business fields in attractive market segments.

HARTMANN generated sales of EUR 2.3 billion in the 2023 financial year. The key to the company's success is the over 10,000 employees – a high-performing, customer-oriented and passionate team that is dedicated to fulfilling on the company's brand promise: Helps. Cares. Protects.

To learn more about the HARTMANN GROUP, visit our website https://corporate.hartmann.info or HARTMANN GROUP on LinkedIn.

### **DID YOU KNOW?**

HARTMANN is one of Germany's oldest industrial companies, having been originally founded as a textile factory by Ludwig von Hartmann in 1818. When Paul Hartmann's family business was founded over 200 years ago in the Swabian town of Heidenheim, Germany, there was no way to know that it would one day become the leading international provider of medical and healthcare products that it is today.

#### **COMPANY PROFILE**

Powerwell Group is a specialist in the design, manufacturing and trading of electricity distribution products with over 35 years of experience in supplying its products for both local and international projects. All of the Group's LV switchboards and MV switchgears are customised equipment that are tailored to the needs of a building or an infrastructure. The rapid acceleration of climate change has made it imperative for companies to urgently transform into businesses that have a foundation in sustainability. The global transition to a low-carbon economy is a prime example of this disruption. At Powerwell, we focus on the key drivers to integrate ESG in every aspect of building a sustainable business that creates long term values. Powerwell has defined a corporate sustainability goal in-line with current environmental and economic challenges, especially the global transition to a low-carbon economy is a prime example of this disruption. Powerwell has put the roadmap to embrace sustainable operations and explore business opportunities in green technology, Industry 4.0 and digitalisation.

# **DID YOU KNOW?**

One of the main causes of accidental fires occurring in Malaysia is resulted from faulty electrical sources. In fact, more than 1,000 buildings were damaged due to short circuits that were triggered by being overloaded or faulty wiring. Therefore, Powerwell strives to ensure the safety of our products by successfully acquiring various international accreditation and certification so that our customers will have peace of mind when using Powerwell.

#### **COMPANY PROFILE**

At PwC, our purpose is to build trust in society and solve important problems This focus shapes the services we offer and the decisions we make.

We're a network of firms in 151 countries with over 364,000 people, committed to delivering quality services in assurance, advisory and tax. In Malaysia, PwC employs more than 3,000 people in seven locations – Wilayah Persekutuan, Pulau Pinang, Ipoh, Melaka, Johor Bahru, Labuan and Kuching – who are dedicated to solving complex problems businesses are facing in today's rapidly changing marketplace.

To perform at our best, we listen closely to our clients, understand their goals and collaborate with them to create the value they are looking for. And we apply the same approach to our team, fostering an environment that helps them realise their potential and define their personal value. Our people value proposition is centred on four pillars: wellbeing, development, total rewards, and Always a PwCer, which is about connection, collaboration and creating meaningful experiences through our diverse and inclusive community. This is our brand promise, which demands that we think differently about value and relationships.

Our service to communities around us goes beyond the 'feel good' factor. We proactively embrace corporate sustainability both as the right thing to do and as the key to our future success as responsible corporate leaders. Whether it's impacting our local community through skilled volunteering, upskilling beneficiaries digitally to be future-ready or committing to achieving net zero with 2030 goals, we strive to promote sustainable business practices with our people and those we do business with.

# **DID YOU KNOW?**

# Empowering Malaysian organisations to thrive in the digital age

railway-system

#### **COMPANY PROFILE**

The REHAU Group is a polymer specialist with annual sales of around EUR 3.3 billion. The independent, privately held company has approximately 20,000 employees in more than 170 locations worldwide. The company employs 12,000 throughout Europe and 8,000 in Germany.

For more than 70 years, REHAU has been working on making polymer products lighter, more comfortable, safer and more efficient. The company manufactures solutions for construction, automotive and industry and supplies its innovative products throughout the world.

3rd Rail - System for traction current supply.

In the field of traction current supply in third rail system, REHAU has for decades proven itself to be an innovative and reliable manufacturer with its system employing polymer materials. Whether for use in tunnels or outdoors, our third rail conductor rail covers, conductor rail supports and composite conductor rails made of aluminium and stainless steel for underground and suburban railways can be utilised even under the most demanding climatic conditions.

REHAU is a supplier for the whole 3rd rail system including the services and therefore a perfect partner for every infrastructure project. REHAU provides full life cycle support for your project – from support in concept development, through to detailed design, operational training, installation supervision, and integrated system interface support. With its Asia expansion, REHAU has successfully delivered and exceeded expectation of all major LRT, MRT project in South East Asia.

#### **DID YOU KNOW?**

Typical urban transport system include high-speed railways, monorails, AGTs, tramways, LRTs, buses, private motor vehicles, bicycles, etc., each with its own characteristic advantages and disadvantages. Introduction of a city transport system requires careful analysis of the transport and technical characteristics along with the scale of the city, the transport objective, the transport demand, etc., to ensure that the best system is selected.

High-speed urban rail system such as subways can satisfy large transport demand amounting to several tens of thousands of people per hour in each direction and are a key transport infrastructure that can carry people at high speeds over either long or short distances. On the other hand, automobiles offer the high convenience of door-to-door travel but the transport efficiency is low due to limits on the number of passengers per vehicle; the hourly transport volume is also poor. Intermediate modes using new technologies such as monorails, AGTs and trams running on dedicated guideways are appearing too. Furthermore, unlike rail-based transport system, there are also new bus-based system using relatively simple technologies such as dedicated bus lanes and buses running along guided paths.

We deploy on-premise solutions with end-to-end system integration and managed services as well as providing high power density data center co-location with fully managed IT operation. Customers can also run simulations on our HPC cloud which is powered by 40,000+ CPU cores and 100+ NVIDIA T4/V100/A100 GPUs.

## **ROBERT BOSCH SDN BHD**

**Mr Vijay Ratnaparkhe** Regional President of Bosch in Southeast Asia

Ms Xiuxing, Aw

Regional Head of Corporate Communications and Governmental Affairs of Bosch in Southeast Asia

No. 8A, Jalan 13/6 46100 Petaling Jaya Selangor

**Email**: Xiuxing.Aw@bosch.com **Web**: www.bosch.com.my

#### **COMPANY PROFILE**

Bosch, a leading global supplier of technology and services, has been present in Malaysia since 1923. Its workforce comprises of over 4,000 associates with nearly RM235 million investment in the country, as of December 31, 2023. Today, Bosch is present in six locations in the country, which includes three manufacturing sites and research and development capacity in Penang. These facilities focus on the production of mobility electronics, power tools, and semiconductors. In Malaysia, Bosch is active in the business areas of Mobility Solutions, Industrial Technology, Consumer Goods, and Energy and Building Technology.

Bosch in Malaysia is part of the Bosch Group, a leading global supplier of technology and services. The company aims to use technology to help shape universal trends such as automation, electrification, digitalization, connectivity, and an orientation to sustainability. In this context, Bosch's broad diversification across regions and industries strengthens its innovativeness and robustness. Bosch uses its proven expertise in sensor technology, software, and services to offer customers cross-domain solutions from a single source. It also applies its expertise in connectivity and artificial intelligence to develop and manufacture user-friendly, sustainable products. With technology that is "Invented for life," Bosch wants to help improve quality of life and conserve natural resources.

The Bosch Group comprises Robert Bosch GmbH and its roughly 470 subsidiary and regional companies in over 60 countries, with a workforce of 429,000 associates worldwide. Bosch's global manufacturing, engineering, and sales network covers nearly every country in the world. Bosch's innovative strength is key to the company's further development. At 136 locations across the globe, Bosch employs some 90,000 associates in research and development, of which nearly 48,000 are software engineers.

#### **DID YOU KNOW?**

Penang is home to Bosch's largest manufacturing facilities in a single country in Southeast Asia. Bosch stood among the top eight pioneering companies that contributed to Penang's development. The latest addition, since August 2023, is Bosch Semiconductor Backend Site in Batu Kawan, Penang. It is one of Bosch's most advanced test centers in Asia, conducting final tests on automotive chips and sensors produced from Bosch's wafer fab in Dresden, Germany, including Application-specific Integrated Circuits (ASICs) and Microelectromechanical System (MEMS) sensors.

This ensures that our products consistently deliver superior performance and reliability. Our dedication to continuous improvement and operational efficiency has positioned us as a trusted partner for businesses worldwide.

At SB Tape Group, we value our people and prioritize their development and well-being. Our diverse workforce includes skilled professionals from various backgrounds, reflecting our inclusive and collaborative culture. We are also committed to localizing talent and reducing dependency on foreign workers.

Customer experience is at the heart of our operations. We are dedicated to providing exceptional service and building long-term relationships with our clients. Our new Supplier Portal and Customer Portal serve as centralized information hubs for purchase order processes and customer order status, enhancing transparency and efficiency.

As we celebrate our 47th anniversary, we remain committed to our vision of becoming a world-class tape manufacturer. Together with our partners, we aim to create mutual value and drive innovation in the adhesive tape industry. For more information, visit our website at www.sbtapegroup.com.

## **DID YOU KNOW?**

Did you know that SB Sustainable Tapes offer a significant competitive advantage by reducing plastic use, being exempt from plastic tax, and promoting eco-friendly alternatives? Importers benefit from reduced tariffs, supported by Malaysia's FTAs like RCEP and CPTPP, which enhance trade and lower costs. This alignment of sustainability and economic incentives makes SB Sustainable Tapes essential for businesses committed to environmental responsibility and financial growth.

#### COMPANY PROFILE

Siemens Energy is one of the world's leading energy technology companies. The company works with its customers and partners on energy system for the future, thus supporting the transition to a more sustainable world. With its portfolio of products, solutions and services, Siemens Energy covers almost the entire energy value chain - from power generation and transmission to storage. The portfolio includes conventional and renewable energy technology, such as gas and steam turbines, hybrid power plants operated with hydrogen, and power generators and transformers. More than 50 percent of the portfolio has already been decarbonized. A majority stake in the listed company Siemens Gamesa Renewable Energy (SGRE) makes Siemens Energy a global market leader for renewable energies. An estimated one-sixth of the electricity generated worldwide is based on technologies from Siemens Energy. Siemens Energy employs around 91,000 people worldwide in more than 90 countries and generated revenue of €28.5 billion in fiscal year 2021.

#### **COMPANY PROFILE**

Siemens is a technology company focused on industry, infrastructure, transport, and healthcare. Its Group of Companies in Malaysia -Siemens Malaysia, Siemens Healthineers and Siemens Mobility provide comprehensive products and solutions for various markets in the Malaysian economy. From more resource-efficient factories, resilient supply chains, and smarter buildings and grids, to cleaner and more comfortable transportation as well as advanced healthcare, the Group creates technology with purpose adding real value for customers. By combining the real and the digital worlds, Siemens empowers its customers to transform their industries and markets, helping them to transform the everyday for billions of people. Siemens made its debut foray into Malaysia through its first recorded sale here in 1908. Since then, it has grown together with the economical and infrastructural development of Malaysia. In 1972, Siemens set up its first semiconductor factories in Malacca and Penang, creating some 1,500 jobs for the nation's workforce. In 1973, another semiconductor factory was set up in Malacca. Siemens has contributed to a significant number of milestone nation-building projects that include Malaysia capital's landmark KLCC Twin Towers, the Klang Valley MRT Line 1 and ERL Express city-airport connection. Most recently, Siemens supplied and rolled-out the Siemens Smart Meter Data Management System for a local utility company, as part of the government's nationwide initiative to enhance sustainable energy and energy efficiency adoption among Malaysians. Further information is available on the Internet at www.siemens.com.my. #TransformTheEveryday

#### **DID YOU KNOW?**

#### **TECHNOLOGY WITH PURPOSE**

Innovative technology has been at the core of Siemens for more than 175 years and it will remain at the core of the future we're building. We are committed to shaping innovative solutions that provide answers for a better future, answers for more livable and sustainable cities, answers for intelligent energy solutions, answers for connecting the real and the digital world to reduce energy consumption and increase competitiveness.

#### **COMPANY PROFILE**

The leading developer of sustainable townships & communities Leading the industry in sustainable property development Sime Darby Property is Malaysia's biggest property developer in terms of land bank, with approximately 15,400 acres available land bank with a total estimated GDV of RM104bil. Our excellent track record in developing residential, commercial and industrial properties is represented by the 25 strategically located and active townships, integrated and niche developments built to date. These townships and developments are connected to major highways and transportation hubs within key growth areas from the central region of Klang Valley to Negeri Sembilan and Johor in the South. With assets and operations across the Asia Pacific region, we also have a global presence in the United Kingdom as the developer of the iconic Battersea Power Station project in central London.

#### **COMPANY PROFILE**

On 1 May 1963, John Skrine and his like-minded partners Stanley Peddie, Peter Mooney, William Donald Bewsher and Chin Yoong Chong founded Skrine & Co, guided by the belief that integrity is the cornerstone of the practice of law. Together, they built the firm by taking care of its people and delivering the highest levels of service to clients, all the while anchored to the tenets of justice and dedication.

This ethos attracted some of the best legal minds in Malaysia, which in turn resulted in a blue-chip client list and the respect of peers. The firm flourished and grew, and with that came global recognition from clients and firms around the world.

Skrine & Co. became simply known as Skrine on 1 January 2000.

Today, the firm is one of the largest legal firms in the country with a global reputation. We have a wide range of practice groups to meet the specialised needs of our clients. We remain steadfast in our commitment to the development of legal minds and the improvement of the community in which we live.

In an increasingly borderless and competitive world, where the law is challenged in new ways daily, Skrine remains resolutely committed to its founding principles: Wisdom. Fortitude. Ingenuity.

#### **COMPANY PROFILE**

Founded in Germany - globally successful. Greencells Group started in 2009 as a small assembly company in Saarbrücken, Germany. With a growing customer base and projects in more and more countries, Greencells expanded its capabilities to become a full-fledged EPC by 2013. Working on a solid UK portfolio in 2015, the company took the opportunity to offer O&M services as well. Today, Greencells Group continues to be a trusted service provider for well-known players in the industry. With its extensive expert knowledge, its closely tier 1 network of technology, finance partners and its high bankability, the company also acts as co-developer for clients. The Group now has over 2.2 GWp of installed capacity under its belt and employs over 300 employees worldwide. Still headquartered in Germany, the Group has international subsidiaries in Malaysia, Singapore, Dubai and the US. Since 2018 Greencells has built around 100 MWp of cutting-edge solar projects in Malaysia, Vietnam and the Philippines. More to come!

#### **COMPANY PROFILE**

The SSI SCHAEFER Group is a leading global solution provider for all areas of intralogistics. With innovative technologies and software, the family-owned company empowers customers to increase the efficiency and sustainability of their storage, picking, and transport processes. From fully automated warehouses, with individual service and maintenance offers, to manual and semi-automated systems, it offers costeffective intralogistics solutions from a single source for small and medium-sized businesses and large companies. The comprehensive software portfolio covers processes from warehouse management to material flow control and offers sustainable resource management with modern real-time analyses, smart data processing, and optimization algorithms. With SSI SCHAEFER Plastics, it is an expert in sustainable container systems, customized constructive packaging, and waste and recycling management solutions.

For years, the SSI SCHAEFER Group has relied on trusted partnerships and strong brands. The Group includes the robotics specialist RO-BER, the SAP specialist SWAN, the robotics and AGV expert DS AUTOMOTION, and the start-up SupplyBrain.

#### **COMPANY PROFILE**

STAEDTLER is one of the leading manufacturers and suppliers of writing, colouring, drawing, and modeling products, with a rich history as one of Germany's oldest industrial companies. Our products inspire creativity, from childhood colouring to professional work, offering high-quality goods for all ages and demands. Headquartered in Nuremberg and with a team of over 2,200 employees spanning 26 countries, STAEDTLER is committed to bridging the gap between traditional analogue methods and modern digital innovations. Nearly two-thirds of our products are "Made in Germany," reflecting our commitment to quality. We also prioritize sustainability in every aspect, from raw material sourcing to production, ensuring efficiency for users and the environment. With a strong market presence in over 150 countries, STAEDTLER is a trusted name globally. In Malaysia, we have been a preferred stationery brand for 60 years, nurturing artistic expression and providing innovative products to end-users.

## TOP BERATEN MALAYSIA SDN BHD

## **Ms Miriam Shastri**

**Managing Director** 

13A - 03, Vida Bukit Ceylon No. 1D, Jalan Ceylon 50200 Kuala Lumpur Wilayah Persekutuan, Malaysia

**Email** : advice@topberaten.my **Web** : www.topberaten.my

#### **COMPANY PROFILE**

"High-Mix Low-Volume production is in our DNA, High Precision Machining is our passion!" Tonasco is a reputable manufacturer of precision components and modules in high-mix low-volume, with specialisation in high complexity, high surface finishing and product cleanliness.

We are an established supplier for many major global players in the Optical, Semiconductor, Diagnostics, Medical and Life Sciences industries, with ISO9001:2015 certified. For nearly two decades we produced high quality and very complex precision components for our global clients mainly in Europe. We also established ultrasonic cleaning and cleanroom assembly capabilities for Cleanroom grade components and modules. We started Industry 4.0 journey since 2018, enhancing our facilities with robotised advanced CNC-machineries, including Simultaneous 5-axis Milling Centres, 9-axis Mill Turn Centres, Job Management System and CADCAM Simulation Software. Through Industry 4.0 technology advancements, Tonasco Smart Factory continues to elevate our efficiency and capabilities as a premium manufacturer for high quality, complex precision components.

#### **COMPANY PROFILE**

TOP Beraten is a world-class management consulting firm that challenges the assumptions of what a management consultancy can be. We are a community of consultants that apply the best practices of large consultancies in an agile environment with the personalised attention of a boutique firm. Our philosophy is to build value for our clients. We support the German business community in Malaysia and Asia. Each part of our practice improves the others. Our experts share insightful perspectives and leverage business acumen to optimise your investments. TOP Beraten are trusted advisors on business strategy and offer broad support across a range of solutions including leadership selection, legal matters, accounting, compliance, payroll, HR, CEO succession, team effectiveness and practical organisational success. Our founding values of Transparency, Open-Mindedness, and a Personal Approach to service guide all that we do. Through us, our clients achieve excellence, and our success is measured by their results.

#### **COMPANY PROFILE**

The steady increase in volume and complexities of generated waste in Malaysia's largest state, Sarawak; as a result of rapid economic growth, urbanisation and industrialisation had made it essential to have an effective and sustainable waste management system in place. In view of this, the Sarawak State Government signed a Joint Venture Agreement with international waste management expert Trienekens GmbH of Germany in November 1998 to implement an Integrated Waste Management System (IWMS) in the State, leading to the formation of Sarawak Wastes Management Sdn Bhd (SWM) as the System's concession holder, with Trienekens (Sarawak) as the System's operator. Drawing strength from more than 90 years of experience in the field of waste and environmental management gained throughout Europe and Asia, the Trienekens Group, with its reputable engineering companies, offers waste generators fully integrated and comprehensive solutions for municipal, industrial and hazardous waste disposal needs.

#### COMPANY PROFILE

Triflex is a German family owned business with more than 40 years of experience and Europe's leading specialist for liquid applied waterproofing. We are committed to the protection of buildings of all kinds with a wide range of reliable and lasting waterproofing solutions. As a pioneer in PMMA technology, we invest heavily on the latest technology to keep quality, sustainability, service at the highest level and employ extensive field tests prior to market launch. Our products have passed the highest approval rating of Europe's leading certification authorities which has proven our technology leadership time and again. Reliability, focus on service and innovation are the values we work by every day in our customers' interest. Triflex's production, development and central functions are brought together in Minden and is successfully represented worldwide and in Asia, through our sales and distribution office in Singapore.

#### **COMPANY PROFILE**

TriOS Mess-und Datentechnik GmbH is a well-established producer of high-quality optical metrology. TriOS has achieved an excellent worldwide reputation by launching the first hyperspectral light measurement device for use in marine research in 1998 and until today has succeeded in becoming one of the leading producers of optical immersion sensors.

TriOS optical sensors are made for environmental applications. They are indispensable for water quality monitoring tasks in drinking water, wastewater, surface water, effluent water and various industrial water applications.

TriOS Mess-und Datentechnik GmbH was founded in 1998 and is based in Rastede, far north of Germany, close to the North Sea. It has 100 employees with a strong R&D team and manufacturing by inhouse CNC machines and modern PCB assembly.

#### COMPANY PROFILE

Tristar Global, established in 2000, has grown internationally in the oils & fats derivative market including oleochemical, serving clients across 86 countries. Our strategic relationships in supplying raw materials to esteemed manufacturers, coupled with toll processing arrangements, enhance our competitiveness and ensure a consistent supply to meet diverse customer demands. Tristar holds key certifications, including ISO 9001:2015, RSPO Supply Chain and ISCC, emphasizing our commitment to quality and sustainability. We have memberships in PORAM, MEOMA, FOSFA, RSPO and MICCI, along with support from MATRADE and MPOC, underscoring our standing. Tristar supported Rotary International in their initiatives towards community service.

Our strengths lie in timely delivery, product quality, flexibility, cost-competitiveness, and market dynamics understanding, forming the core of our identity. In managing logistics, transportation, and storage, we have established a network of trusted and longstanding partnerships. Rigorous risk mitigation includes comprehensive insurance coverage, FOSFA-approved inspections, and engagements with reliable carriers.

#### **COMPANY PROFILE**

Turkish Airlines, opening more international gateways across the world for its passengers than any other airline, currently offers a wide range of flights to 344 destinations in 129 countries. Today it serves with a passenger and cargo fleet of 400 aircraft and with the same excitement and enthusiasm since its humble beginning in 1933 with just five aircraft. The substantial growth it has achieved has put Turkish Airlines among the top airlines of the world.

Istanbul New Airport being the world's largest international hub will be home to Turkey's national flag carrier and establishes Istanbul as the central location in the world for aviation and travel. Thanks to its strategic location at the crossroads of east and west, the airport has great potential for Turkish Airlines and the global aviation industry, and will welcome 200 million passengers per year upon final completion.

#### **COMPANY PROFILE**

VIENNA Advantage GmbH has been in the ERP implementation since 2005. Founded in Germany by former SAP employees, VA has established itself as a real alternative to enterprise-grade ERP system such as SAP and Oracle. VA serves a wide range of industries and has a foot print in the Malaysian market by working with large enterprises and conglomerates. VA complies to the Malaysian statutory requirements in Financial, Taxation and Payroll. Local support is available through established partners located in Malaysia and Sarawak. VA offers the traditional on-premise as well as the fully-served cloud deployment model whereas data can be hosted in Malaysia, Germany or in various countries of your choice. Some of the industry verticals covered in Malaysia are Manufacturing, Real Estate, Construction, Hospitality, Financial Services, Professional Services and many more.

#### **COMPANY PROFILE**

VITRONIC's machine vision technology ensures safe processes in various industries, including traffic monitoring, logistics, and automotive. Established in 1984, VITRONIC has grown consistently for 40 years. VITRONIC plays a significant role in road safety by providing speed enforcement and toll collection solutions. Our machine vision system are deployed in car manufacturing to ensure weld quality on safety-relevant components. They are also used in pharmaceutical and medical device production, guaranteeing the proper manufacturing of items such as insulin pens. In the logistics sector, our technology helps track and sort goods efficiently in distribution centers. The VITRONIC subsidiary in Penang, Malaysia, supports the Southeast Asian market. Having this local presence allows us to provide regional sales and after-sales support, including maintenance, a 24/7 hotline, and spare parts. Our strong engineering group in Penang is engaged in fostering localized fabrication and customization of VITRONIC solutions, VITRONIC remains committed to providing innovative machine vision solutions, contributing to the creation of a safe and sustainable world. As of 23 May 2024, ITIS Holding, part of PPF Group, has completed the acquisition of the German VITRONIC Group. ITIS and VITRONIC complement each other perfectly in terms of the solutions provided and regional reach.

#### **COMPANY PROFILE**

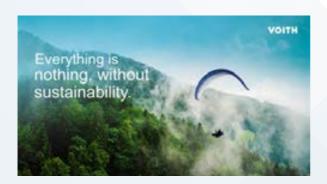

The Voith Group is a global technology company. With its broad portfolio of system, products, services and digital applications, Voith sets standards in the markets for energy, oil & gas, paper, raw materials and transport & automotive. With locations in over 60 countries, Voith operates around the globe, maintaining an extensive network of production, service and sales units on every continent on the planet.

Voith is more than 155 years family-owned company headquartered in Heidenheim, Germany. Voith operating business is structured into three Group Divisions: Voith Hydro, Voith Paper and Voith Turbo.

A large proportion of the world's paper production is manufactured on Voith paper machines. A quarter of the energy generated worldwide from hydropower is produced with turbines and generators from Voith Hydro. Voith's drive components are found in applications all over the world, both in industrial plants and in road and rail vehicles, as well as on the waters.

The Group Division Voith Paper is a leading full-line supplier as well as a pioneer in the paper industry. Through constant innovations Voith Paper is continually optimising the papermaking process and facilitating resource-saving and efficient production. Creating customer value with the most sustainable and efficient papermaking solutions from one single source. Our global team fights for the success of papermakers, delivering robust solutions to meet our customers' needs – all from one single, reliable source. Based on our expertise and experience, we optimise along the entire machine life cycle. Digitally enabled combinations of our unique product and services portfolio set the benchmark in the industry. Incremental innovations and breakthrough technologies ensure maximum efficiency and sustainability of our customers' papermaking process.

## **DID YOU KNOW?**

We continue the traditions of the family-owned company Voith based on our understanding of sustainability: the obligation to take ecologically sound, socially responsible and fair actions, and to return a profit over the long term. We are systematically implementing our sustainability strategy and have defined five fields of action to this end. Our aspiration of sustainable business management and our pursuit of profitable growth are stated here, as is our responsibility for our products, for the environment and for our employees.

#### **COMPANY PROFILE**

The Voith Group is a global technology company. With its broad portfolio of system, products, services and digital applications, Voith sets standards in energy, oil, gas, paper, raw materials, transport & automotive. Founded in 1867, the company today has around 20,000 employees, sales of € 4.3 billion and locations in over 60 countries worldwide and is thus one of the larger family-owned companies in Europe. As a family-owned company, we are committed to environmentally friendly, fair, long-term business practices. Furthermore, we intend to create measurable added value for the sustainable development of our company, society, and the environment. The Voith Group actively operates business in a wide variety of markets therefore its business is bundled in Group Divisions: Voith Paper, Voith Hydro and Voith Turbo.

Voith Turbo is a leading global technology company that drives Decarbonisation, Electrification and Efficiency improvements around the globe as one of the pioneers. Our division is organised into two business lines: "Mobility" and "Industry".

Voith Turbo – Mobility, our core competency lies in the drivetrain for Commercial Vehicles & Automotive, Rail Vehicles, and Marine Technology. We complement our existing portfolio with innovative drive solutions from the fields of electrification and hydrogen, enabling customers to build on our many years of expertise, depending on their requirements and application.

Voith Turbo – Industry, is a key player in sustainable & reliable technology for Mining & Metals, Energy, Power and Oil & Gas markets. We are the technology partner and enabler for our customers in the engine room of the global economy. Whether power transmission in power plants, transport of raw materials or drive of machine tools – we ensure the reliable drive of the global economy, together with our customers.

#### **DID YOU KNOW?**

Voith Turbo Sdn Bhd was established in Malaysia in 1994 and has since been a key provider to the Power, Oil & Gas, and Mining & Metals industries across Southeast Asia.

Our extensive range of hydrodynamic drive solutions is built on decades of experience and is renowned for exceptional reliability. Our ability to customize these solutions makes us an ideal partner for operations in demanding and severe environments.

The Turbo Coupling by Voith Turbo is engineered to shield the drive system from damage in even the most extreme conditions, minimizing downtime and facilitating uninterrupted production.

Our products are integral to numerous mining and material handling facilities in sectors such as Power, Petrochemicals, Cement, and more. They are also employed in Ports, Shipyards, and even on Royal Malaysian Navy (RMN) Naval Ships, underscoring the trust and reliability of our Turbo Coupling.

#### **COMPANY PROFILE**

Volkswagen Group Malaysia is responsible for all operations of producing and distributing Volkswagen Group products in Malaysia. Since 2012, our activities include Supply Chain Management, Production Planning, Assembly, Government Relations, Finance, Compliance and Legal. Sales and Aftersales activities are covered by our Sales Company, Volkswagen Passenger Cars Malaysia. Volkswagen Group is one of the world's leading automobile manufacturers and largest carmaker in Europe. Out of its ten Brands, five are manufactured and sold in Malaysia: Volkswagen, Audi (assembly starting in early 2025), Porsche, Scania and MAN. At Volkswagen Group Malaysia, it is our goal to participate in the country's economic growth, bringing in innovative technologies in automotive production, qualifying the workforce to top notch standards and sharing our high quality products with the local and regional markets. Green Manufacturing and Sustainable Supply Chain Management are our promises to ensure national emission standards, using renewable energy to produce our energy efficient vehicles. With approximately 700 employees in Head Quarters, Production, Suppliers and Dealers, we produce high quality products for the Malaysian Market and will additionally start our export project to other ASEAN countries in early 2026. Simultaneously, the production of Electric Vehicles will start in the same year in cooperation with our partner companies within the Volkswagen Production Network. This will contribute to our goal of achieving CO2 neutrality by 2050. In order to achieve that important goal, we are working closely together with many partners in the Malaysian Ecosystem, within the Government Agencies, Educational Sector and Supplier Base.

#### **DID YOU KNOW?**

With more than 37 million units sold, the Golf became Volkswagen's most successful model since the legendary Beetle. It all started in the Spring of 1974, when Volkswagen started the first series production of Golf in Wolfsburg. Over the years, eight generations of the Golf has been produced in eight countries around the world, with many more generations still to come. Today, Volkswagen is celebrating the 50th anniversary of the Golf - and we're joining in the celebration right here in Malaysia. Join us at the Golf Fan Fest 2024 in Sepang International Circuit on August 24, where we will commemorate this iconic model. We hope to see you there!

## **COMPANY PROFILE**

Water Care Vision Sdn Bhd was established in 1999. The company's vision is to meet our customer's needs by supplying healthy drinking water to them. We currently supply energized drinking water to many MNC offices, international hotels, small companies, and private homes. To complement this, we also offer a range of Nestle beverages, coffee machines, and hot & cold-water dispensers. We have been also distributing Grander Technology products from Austria for more than 20 years. Grander is green technology in water treatment for domestic, hotel, agricultural, food and beverage production, catering, and industry use. Currently we are distributing TCHIBO coffee beans, the biggest coffee beans producer in Germany.

#### **COMPANY PROFILE**

With its three business divisions: Energy Technology, Environmental Technology, Manufacturing and several international subsidiaries and partners. WEHRLE develops, plans, supplies and operates plants and components for the generation of energy from combustion processes, sewage sludge incineration for recovery of phosphorus, industrial water treatment, wastewater and waste treatment, treatment of liquid manure, water recycling (ZLD) and recovery of material from wastewaters, and manufactures components for machine and plant construction in its own factory halls. WEHRLE is a brand for reliability, customer orientation and quality. In our international team, experienced specialists, open-minded spirits, creative minds and young talents enjoy working together to find solutions for manifold tasks and challenges. For more than 150 years, WEHRLE has been rooted in Emmendingen, in the south-west of Germany near the Black Forest in close neighbourhood of France and Switzerland and also in the world with high-performance plants in over 40 countries on 5 continents.

#### **COMPANY PROFILE**

Zofar Mechanical & Electrical Engineering Sdn Bhd was founded in October 2002. Business mainly involved in electrical system installation and maintenance. In early 2003, our company business models began focusing on mechanical and electrical maintenance services. In the following years, the company is certified by Construction Industry Development Board (CIDB) as a qualified contracting company in civil, security, electrical and mechanical services. With over 20 years of experience, regular training and knowledge sharing with world leading partners, we aim to deliver services and product that meet and exceed our client's requirement, expectation and satisfaction. We offer services in electrical work and system installation, comprehensive maintenance, troubleshooting, building monitoring & management, calibration and other engineering services.

#### COMPANY PROFILE

For more than 100 years, Züst & Bachmeier has been THE company for complex transport solutions. As pioneers in worldwide project logistics we operate between tradition and innovation. It was a conscious decision to run the company as a family enterprise. For our customers, we are able to act flexible and promptly due to flat hierarchies, personal service, customised transport solutions and unconditional reliability. We see ourselves as a provider of service. A comprehensive and personal service has been the first objective since forming the company. The success story of Züst & Bachmeier started 1911 in Switzerland. In the early years, the company focused on shipping whole sets of machines for the textile industry to Russia. In the 1950's, Züst & Bachmeier systematically extended its business activities. Since then worldwide shipping of any project has been the core competence of the company. In 2016. Züst & Bachmeier Project GmbH became part of the Universal Transport Group in a move to systematically strengthen the product portfolio.

Robert is also a member of the Board of Trustees of the Malaysian Nature Society which is Malaysia's foremost non-profit Society dedicated to protection and conservation of our natural heritage.

#### **PROFILE**

After I completed my tertiary education (Mechnical Engineering) in Adelaide, Australia in 2014, I joined Cotel Precision Industries Sdn Bhd as a Junior Sales Engineer. Cotel Precision Industries is a local incorporated company, which is one of the leaders in Malaysia for distributing metrology products in Malaysia. Gradually, I have moved up the rank and became the head of company two years ago. Currently I have 4 divisions reporting to me. We represent a number of German products in Malaysia and I am the contact windows for our German principals. I work closely with our German principal and I have visited Germany many times over the last 10 years, for visiting exhibition, meetings with our German principals and also for factory training.

## **ACTIVITIES**

The Bergische Chamber of Commerce and Industry Wuppertal-Solingen-Remscheid helps all member companies (33,000 approx. – mainly small and medium sized companies) to set up international business activities, mainly by providing consulting services and seminars. We help to establish contacts within our international network, we supply our members with necessary legal and market information and we answer individual questions regarding market access and import/export handling. Further we issue Certificates of Origin as well as Carnet ATA and assist to issue other export documentations.

## **ACTIVITIES**

The Bremen Chamber of Commerce is a modern service provider for its Membership, a critical partner for the Government as well as an authorised representiive for responsibilities of public adminsitration (i.e. professional education and training, certification of international trade documents, promotion of foreign trade or procuration of initial business contacts). The state of Bremen has entrusted the Bremen Chamber of Commerce with representing Bremen's businesses and industries with more than 40,000 corporate members. The services we offer are an important instrument for promoting and advising Bremen's economy. We provide consulting services for companies in all aspects of public procurement. We inform public contractors about capable companies, which can provide the products and services they require. This holds particularly true for cross-border business – from market entry and the penetration of foreign markets to mediating business contacts and international facilitation of sales channels and procurement sources.

## **ACTIVITIES**

The Niederrheinische IHK is a service oriented interest group for its around 70.000 member companies from the sectors of services, industry and commerce, based in Duisburg.

## **ACTIVITIES**

The South Westphalian Chamber of Commerce and Industry in Hagen provides a wide range of services on all business matters for 45,000 member companies with the support of its 80 employees. Assisting in international business, the Chamber organises foreign trade workshops, conferences on foreign markets and business delegations to establish b2b contacts abroad. For members, we issue certificates of origins, customs documents and carnets (Merchandise Passports). South Westphalia between Cologne, Dortmund and Frankfurt is the most industrialised part of Germany. More than 50% of all employed persons work in trade and industry. Traditional branches are automotive suppliers, wire-drawing, cold-rolling and steel-processing, electrotechnics and plastics processing and the facility engineering industry such as lights, switches, faucets, security technology or door system.
